

# User Manual for Agile Board

The link for the website is: <http://greenbay.usc.edu/agileboard/WebApp/>

## Login/Logout

To login to the Agile Board system, please use the USC CSE system NetID and password. This module is the same for both users and admins and based on your credentials it will direct you to the relevant part of the system.

The image shows the USC CSE iCard Sign-in form. At the top is the USC CSE logo, which consists of a red roof-like shape with 'USC' in yellow, and below it, the letters 'CSE' in a stylized, blocky font with vertical bars. Below the logo is a red header bar with the text 'CSE iCard Sign-in' in white. The main form area has a light beige background. It contains the following text: 'Type your USC NetID (your USC email without the "@usc.edu") and password correctly. Remember, passwords are case-sensitive.' Below this text are two input fields: 'USC NetID:' and 'Password:'. To the right of the 'Password:' field is a 'Sign In' button. At the bottom of the form, there are two links: 'Get a CSE iCard here' on the left and 'Forgot your iCard' on the right.

To logout from the system, just click the logout button on the top right.

Team: Agile Board team      Board: Team 1, agile board      Iteration: 2 (2013-04-26/2013-05-23)      User: alexey tregubov (Logout)      Logout Button →

## Users

### View Board

As soon as you login to the system as a user, you will be directed to this page. This will be the home page of any user.

<b>Team: Agile Board team</b>			<b>Board: Team 1, agile board</b>			<b>Iteration: 7 (2013-03-19/2013-03-26)</b>			<b>User: alexey tregubov (Logout)</b>		
<div>Agile Board   Add a New Task   Save Board   Create a New Iteration</div>											
<b>To Do</b>				<b>Doing</b>				<b>Done</b>			

**Note:** If you are a user and you do not see your team's board when you login, contact your administrator and asked to be added to the team you belong to.

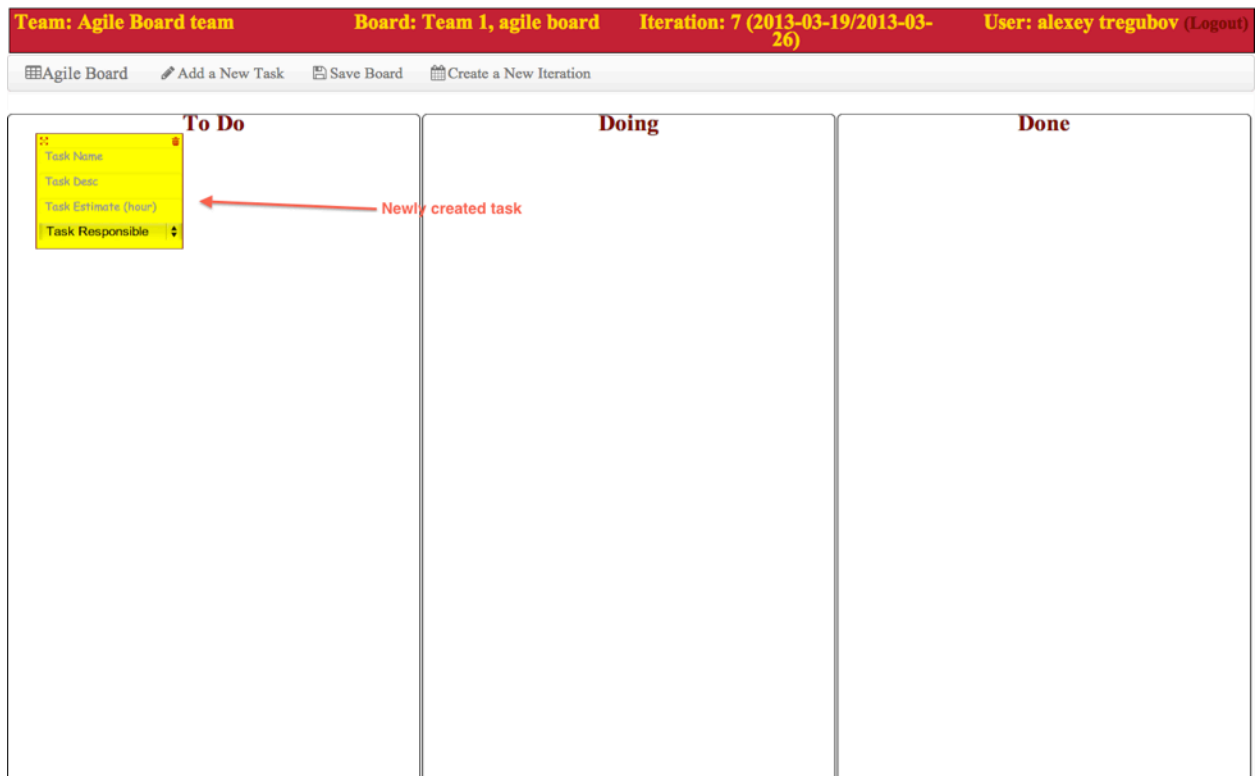

## Add a New Task

To add a new task follow these steps:

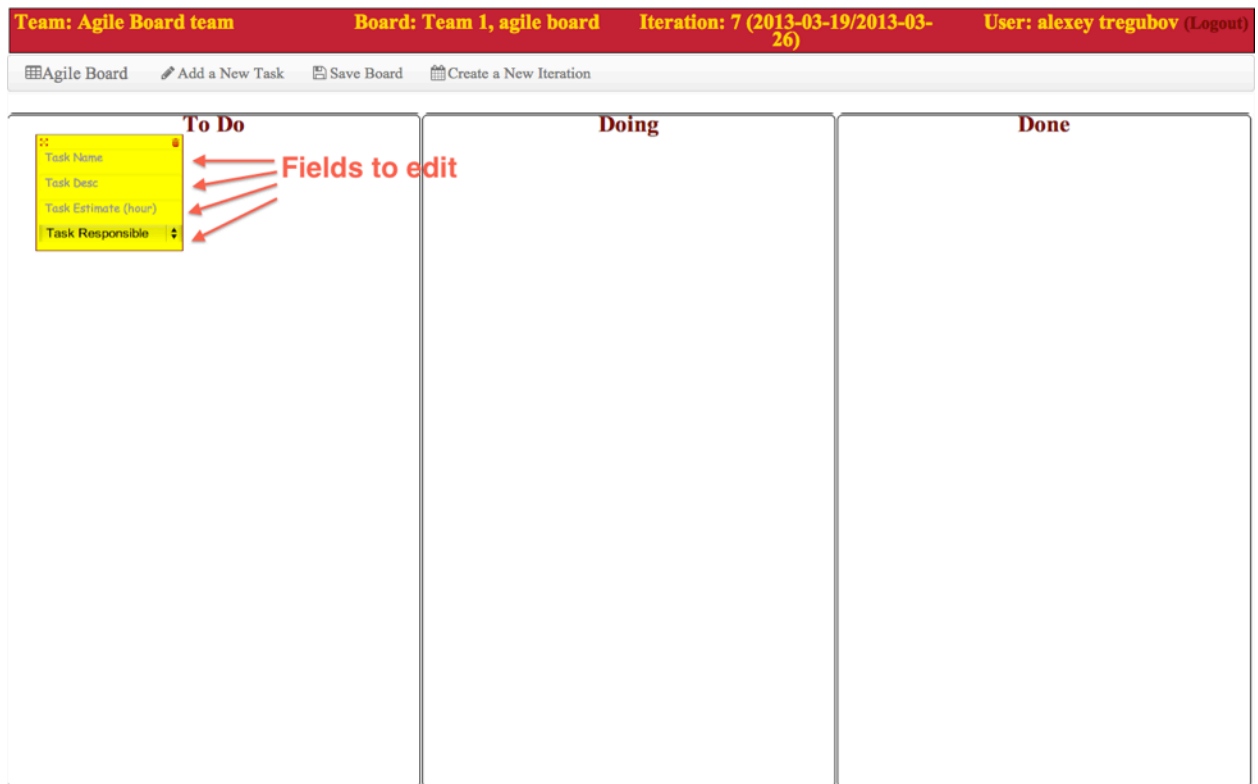

1. From the toolbar above the agile board, click Add a New Item.

2. When you see the newly created task (Screenshot A), edit the necessary fields (Screenshot B)

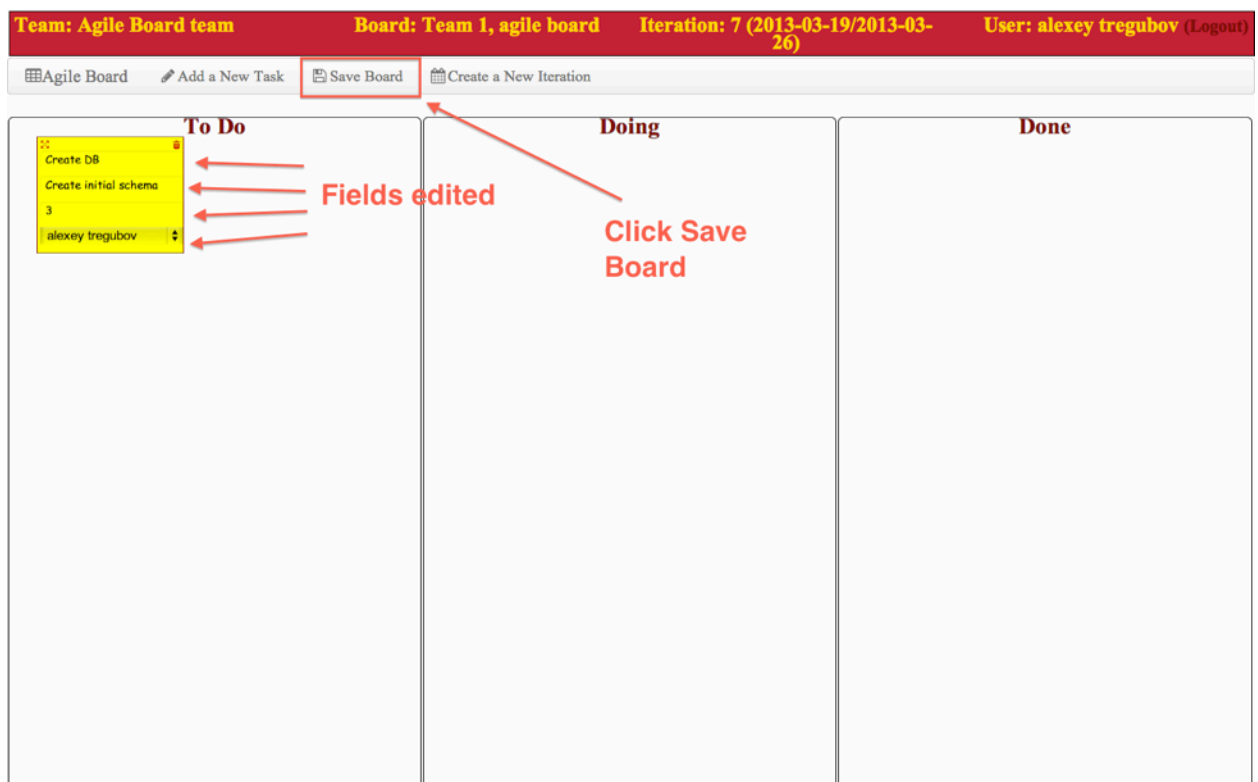

Screenshot A

Screenshot B

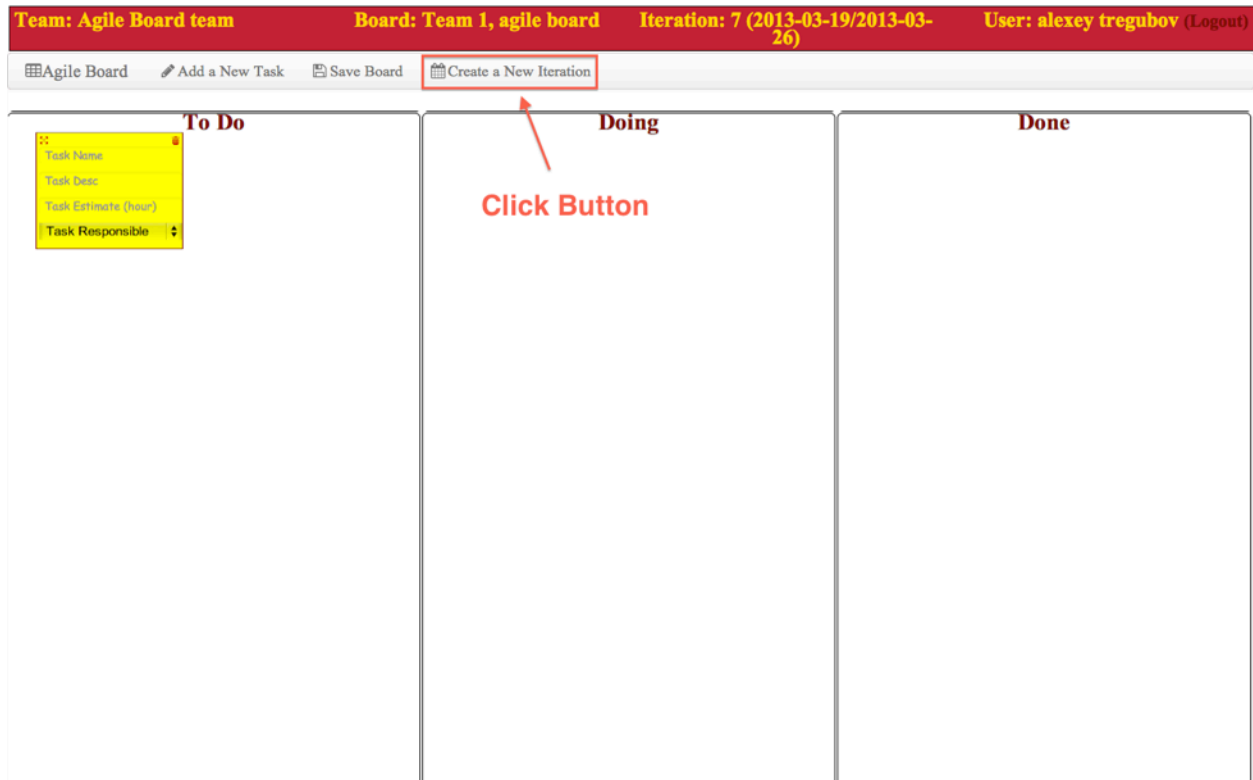

3. After you edit the the fields, click Save Board to update the board for the team.

## Create a New Iteration

To create a new iteration follow these steps:

1. From the toolbar above the agile board, click Create a New Iteration.

2. The Create a New Iteration page will give you options for the iteration number, and dates.

Team: Agile Board team

Board: Team 1, agile board

Iteration: 2 (2013-04-26/2013-05-23)

User: alexey tregubov (Logout)

Add a new iteration

Number:

Date: Form  To

By creating this new iteration current uncompleted tasks move to ToDo column of new iteration

Show 10 entries

Name	Description	Work Estimation	Current Status
Create DB	Create initial schema	3	TODO

After submit information for updating session you should login again!

Submit

Cancel

Iteration number and dates

3. The incomplete tasks will be visible in the table below, like the task we created earlier.

Team: Agile Board team

Board: Team 1, agile board

Iteration: 2 (2013-04-26/2013-05-23)

User: alexey tregubov (Logout)

## Deleting Tasks

To delete a task simply click the trash button at the upper right corner of any task.

The screenshot displays an Agile Board interface with a red header bar and a light gray navigation bar. The header bar contains the following information: Team: Agile Board team, Board: Team 1, agile board, Iteration: 2 (2013-04-26/2013-05-23), and User: alexey tregubov (Logout). The navigation bar includes links for Agile Board, Add a New Task, Save Board, and Create a New Iteration. The main area is divided into three columns: To Do, Doing, and Done. A task card is positioned in the Doing column, containing the text 'Create DB', 'Create initial schema', the number '3', and the user name 'alexey tregubov'. A red box highlights a trash icon in the top right corner of the task card, with a red arrow pointing to it and the text 'Click to delete'.

**Note:** Be careful with this function. There is no undo functionality.

## Iteration History

Users can view the history of their iterations by clicking the iteration history button.
